

1. What is the composition of our respondents by age (group by 10 years like 10-20, 21-30, etc.), gender, caste and religion? What is the average family size and median age of family members of the respondents? Categorize by religion and if Hindu, by caste.

What is the composition of our respondents by age (group by 10 years like 10-20, 21-30, etc.), gender, caste and religion?

The composition of respondents by age group, gender, caste, and religion is as follows:

- **10-20 Age Group:**
 - * Female, Unknown Caste, Hindu: 1 respondent
 - * Female, SC Caste, Christian: 1 respondent
- **21-30 Age Group:**
 - * Female, Unknown Caste, Muslim: 1 respondent
 - * Female, OBC Caste, Christian: 1 respondent
 - * Female, ST Caste, Hindu: 2 respondents
 - * Male, Unknown Caste, Hindu: 1 respondent
 - * Male, SC Caste, Hindu: 1 respondent
 - * Male, ST Caste, Hindu: 1 respondent
- **31-40 Age Group:**
 - * Female, Unknown Caste, Hindu: 1 respondent
 - * Female, Unknown Caste, Muslim: 1 respondent
 - * Female, OBC Caste, Unknown Religion: 1 respondent
 - * Female, OBC Caste, Christian: 1 respondent
 - * Female, OBC Caste, Hindu: 1 respondent
 - * Female, SC Caste, Hindu: 1 respondent
 - * Female, ST Caste, Hindu: 1 respondent
 - * Female, ST Caste, Prefer Not to Say: 1 respondent
 - * Male, General Caste, Muslim: 1 respondent
- **41-50 Age Group:**
 - * Female, Unknown Caste, Hindu: 1 respondent
 - * Female, OBC Caste, Hindu: 1 respondent
 - * Female, SC Caste, Unknown Religion: 1 respondent
 - * Female, SC Caste, Hindu: 1 respondent
 - * Female, ST Caste, Hindu: 1 respondent
 - * Male, OBC Caste, Hindu: 2 respondents
- **61+ Age Group:**
 - * Male, General Caste, Hindu: 1 respondent
 - * Male, SC Caste, Hindu: 1 respondent
 - * Male, ST Caste, Hindu: 1 respondent
- **Unknown Age Group:**
 - * Female, SC Caste, Prefer Not to Say: 1 respondent

#	Age_Group	Gender	Category_of_Caste	Religion	Number_of_Respondents

The average monthly household income of respondents, categorized by religion and caste, is as follows:

- **No Religion Specified:** OBC: 20000.0
- **Christian:** OBC: 20000.0, SC: 15000.0
- **Hindu:** No Caste Specified: 26250.0, General: 10000.0, OBC: 26000.0, SC: 11666.67, ST: 18333.33
- **Muslim:** No Caste Specified: 5500.0, General: 24000.0
- **Prefer Not to Say:** SC: 10000.0, ST: 11000.0

6. What is the composition (%age) of all chronic diseases of the respondents and their families?

#	Disease	TotalCount	Percentage
1	Arthritis/Back Pain	9	25
2	High BP	8	22.22
3	Diabetes	6	16.67
4	Low BP	3	8.33
5	Thyroid disease	1	2.78
6	Thyroid	1	2.78
7	Stomach operation	1	2.78
8	Smoking related health issues	1	2.78
9	Migraine	1	2.78
1	Liver Cirrhosis	1	2.78
1	Heartburn from oily food	1	2.78
1	Body issues	1	2.78
1	Asthma	1	2.78
1	Alcohol related health issues	1	2.78

The most prevalent chronic diseases are Arthritis/Back Pain (25.0%), High BP (22.22%), and Diabetes (16.67%). Other reported illnesses include Low BP (8.33%), and several conditions like Thyroid disease, Thyroid, Stomach operation, Smoking related health issues, Migraine, Liver Cirrhosis, Heartburn from oily food, Body issues, Asthma, and Alcohol related health issues, each accounting for 2.78% of the total.

7. What are the composition of sources of drinking water, type of electricity connection, frequency of waste collection, and toilets connected to a sewer line?

	drinking_water_source	COUNT(*)
1		1
2	Others	9
3	Piped Water Connection inside the house	4
4	Tanker	15

	How_regularly_is_it_executed_	COUNT(*)
